To place the knot in position under the left ear, and to draw down the cap was the work of an instant. Apparently there was no sign from the Sheriff. Wiffhout warning to the speciators, Mills was jerked three feet into the air. There was little evidence of a death struggle. It less than a minute all motion had ceased, He was hanged at 10:14 o'clock, and at 10:45 his body was lowered into a black cloth-covered coffin. Dr. John Johnson said:

It was the most paticless execution I have ever witnessed, and I have seen scores. I don't think the man auffered for an instant. The knot was so arranged that the neck was broken and death was instantaneous.

The ceffin containing the remains was carried to the corridor which Mills had occupied, and one by one his relatives filed in, and after kissing the face took seats on either side. Brief funeral services were conducted by Chaplain Base. A hearse and four carriages were in waiting, and at noon the remains were removed to Cynress Hills Cemetery, where Mills's wite and four children are also buried.

Mills was 42 years old. Three children survive him, one son and two daughters. His daughters are with their grandmother, at 5t. Johns, of which place he was a native.

The murder took place on the afternoon of Oct. 6, 1883, at his harness shop at 148 North Satts street, Williamsburgh. His wife was assisting him in making out some brils, and his little daughter Annie was with them. Mills saked his wife to go out for a pint of beer, but as he had had aiready two pints of beer during the day, and had been drinking hard the night before, she refused to do so, saying that money was needed for domestic purposes, and that all there would be in the house that Saturday night was the 34 which the boy had carned. He seemed glad when the train left Eimira, and talked all the way to New York of how soon he'd get over his cold, and how many miles he'd cover to his next race. Upon arriving in New York, Donovan and his trainers went to the office of the Parf. Freed and Farm, where arrangements were made for a race with Kenneth R. Skinner in May. The party then went to the Putnam House, where Donovan complained of feeling unwell, and was put to bed. Dr. Chares S. Wood was summoned, and found that pneumonia had attacked the boy's left ling. He ordered flaxased poutities put on Donovan's back and breast, and prescribed for him every day. Davis and Smith nursed the boy day and night, and a week ago the boy was youvalescent. On Wednesday the disease had entirely left him, and the doctor told him he could go out in a few days.

The cause of his death was exposure after recovering from his liness; and the pneumonia, which exhausted the skater's system, was contracted by his being outdoors so soon after his exertions in the race.

OTTAWA, April 10.—There was a long debate in the House of Commons this evening on the question of reciprocity with the United States. This intermet the Executive Committee of the Oregon Railway and Navigation Company recommendation. To-day's stock market was about one-half as active as yesterday's and the tendency was toward lower prices. The absence of warlike advices from abroad, together with an advance in vices from abroad, together with an advance in
the price of consols and in Russian securities

is possuity worth noting that the declines were,
as a rule, small, and were largest in two or
three of the most active stocks, and also that
the dealings were lightest at the lower range
of prices. The close was quict, but fairly steady.
